POL TEDESKO MILLÁN

PERSONAL PROFILE

I'm a Telecommunications Engineering student in UPC taking the Audiovisual Systems specialization.
I consider myself a passionate person about new technology and i'm seeking to expand my training and knowledge in the workplace.
My main interests are voice and image processing as well as Front-End Web Development, that I taught myself, and I'm always looking for opportunities to continue learning and eventually be able to play a role of Full Stack Web Developer.

SKILLS
